XL27 Body without Trunk

The new XL27 by Shadow Rods is a '27 roadster, redesigned to fit '32 frames, both original and after market. The XL27 body is 3" taller and has 4" longer doors and cabin. Produced to current O.E.M. specifications, this 19 gauge galvanealed steel body features a stamped inner structure, stainless steel door hinges, bear claw door latches and 11 gauge upper and lower seat supports.

\$ 9,600

XL27 Body with Trunk

This XL27 body has all the same great features as the above model with an added trunk for storage space. This spacious trunk compartment features a parameter water trough system which will fit a modern bulb type weather seal (bulb seal not included). A chrome plated, cable operated trunk lid striker and latch assembly are included.
